CHILDREN'S VILLAGE

INTRODUCTION:

According to UNICEF, Uganda has 2.5 million orphans. Of that number, 1.2 million are orphaned by AIDS. What do these numbers mean? Unfortunately, there are many Ugandan children suffering as a result of being orphaned. They lack some of the most basic needs in life. They are hurting and hungry; some have been abused or neglected; and many face the risk of being introduced to some of the worst vices in the community. These children have never experienced a parent's love. Our dream and vision is to help construct a children's village which will provide positive holistic care and a safe and loving environment for these children. This vision will include but not be limited to:

- A kindergarten, a primary school, a water project, a medical clinic, an agricultural farm, a guest house, and 10 cottages where house parents will be able to care for up to 120 children.
- The village will provide safe and open outdoor spaces with beautiful vegetation and plenty of space to live and play which in turn will help the children develop their social skills.
- THIS WILL BE a place where these young men and women will be disciplined to become missionaries to the nations of the world to go and transform lives with the power of the gospel.

At Rehoboth Children's Village we believe that when orphaned and vulnerable children are put in a loving family environment, with a mother and siblings who love them, the children will find a place that they can call home.

The school will provide the best quality Christian-based education, not only to the orphans but the community as well. Proceeds from the paying students will help run the entire orphanage, hence no

need to depend on donations to sustain the orphanage.

Our guest house will provide accommodations to volunteers who come to help with the village, as well as work as a source of income for other missionaries who come through the area and these funds will go further in sustaining our village.

The dream so far includes all of the following which have already been acquired.....

4 acres of land, building permissions, a water well, 30,000 bricks made by community, a truck to ferry building materials, one cottage built, a second cottage which is at the wall plate stage, a school with 6 classrooms, 36 orphans already being cared for, 102 helped occasionally but on waiting list. 16 grandmothers supported with agricultural inputs, and 1 of our girls has GRADUATED FROM University.
